Blumenthal Awarded Leopard Sky Contract

Blumenthal has been awarded the contract to fabricate and install 52 aluminum panels in the Bush Intercontinental Airport Terminal E project by Stewart-Matl, Ltd. of Austin, Texas. The project, titled Leopard Sky by artist Shela Klen, is a portion of Project 500M of the Houston Airport System. Previously Blumenthal worked with the artist on the prototype which can be seen on the ground floor near the cashiers in the Terminal A/B Garage Parking indicated below.

This project represents the largest in our company's history and continues the expansion of our market in art and architectural fabrication and installation. The image below is a mock-up of the full installation, courtesy of artist Sheila Klein.

Below is a photo of the prototype fabricated and installed by Blumenthal Sheet Metal earlier this year.

Construction on this project should be completed by the end of 2004 according to the construction documents.

Keep up with the project beginning October, 2003 by visiting our website at www.blumenthalsheetmetal.com
